Opinions on Genetics?

Participate in a 1-hour interview to share your thoughts on genetic research and policy development for the Navajo Nation

Example of Interview Questions

1. What do you think of when you hear the word “genetics?”
2. What concerns do you have about genetics research?
3. If the moratorium on genetic research is lifted, what would you like to see included in the genetic research policy?
4. What cultural considerations need to be in place before research occurs?

Participants will receive a $50 gift card for their time.

These anonymous interviews will inform the development of a Navajo Nation genetics research policy.
